March 13, 1952

Supervisors met at the school house at above place and date. All members were present. A number of citizens were present in regard to "Our Traffic Problem". Upon invitation, the following were present: Cpl. George Finnin of the State Police, Pleasant Gap, S. A. Bailey of the Department of Highways, Harrisburg, and C. A. Frost, Representative in General Assembly, State College.

The matter of traffic safety was discussed and the following points brought: (1) the problem is largely due to carelessness of a few drivers; (2) a few policemen cannot entirely enforce the law at all times; (3) any citizen or group of citizens may make information against a person and have them arrested on the charges of reckless driving or driving too fast for conditions; (4) hiring a township policeman will not solve the problem nor can the township afford the cost of such protection.
