

SUPERVISORS MEETING

MAY 13, 1975

CALL TO ORDER

MINUTES OF PREVIOUS MEETING(S)

TREASURER'S REPORT

CORRESPONDENCE

- OLD BUSINESS -----
- (1) Police Report (Mrs. Taricani)
  - (2) Letter from College-Harris Joint Auth. Phase III Sewer Construction
  - (3) Answer of the Board of Supervisors of College Township to the Petition of Centre Hills Country Club and Centre Hills Realty Inc. For Allowance of Appeal in the Supreme Court of PA (Eastern Dist.)
  - (4) Request for Rezoning of the Rallis Property

- NEW BUSINESS -----
- (1) ~~Minutes from College-Harris Joint Auth. Meeting~~
  - (2) Letter from Mrs. White, College Township Park Comm.
  - (3) Penn State University Anthropology Dept. (Spring Creek Park)
  - (4) Letter from College-Harris Joint Auth. to Reed McCormick re Mount Nittany Terrace - Sec. 1 and 2
  - (5) Letter from Nuri Mohsenin concerning Flood Plain Boundary Line and Subdivision
  - (6) Appoint Jeffrey Roush Sewage Facilities Act Inspector
  - (7) Newly Constructed Whitehall Road be named University Drive
  - (8) Open Bids on Mast Arm for Signal Lights at Nittany Mall
  - (9) Adopt Transfer Tax Ordinance
  - (10) Complaint - Thomas Lechner

PLANS FOR APPROVAL

- ANNOUNCEMENTS -----
- (1) Purchase of small 1-1/2T Road Roller
  - (2) Lottery Drawing at Nittany Mall on 5/14/75

OPEN DISCUSSION

ADJOURNMENT

MINUTES OF MEETING HELD BY THE  
COLLEGE TOWNSHIP BOARD OF SUPERVISORS  
IN THE MUNICIPAL BUILDING  
MAY 13, 1975

The meeting was called to order by Chairman Elwood Williams at 7:32 p.m. with Mr. Trotter and Mr. Ziegler in attendance.

The Minutes of the meeting held April 8, 1975 were read and corrected as follows:

Page 6, Line 17 - change Mr. Ed Dale to Mr. Ed Dill.

Mr. Trotter moved and Mr. Williams seconded the motion that the minutes be approved as corrected.

The Minutes of the Road Inspection held April 28, 1975 by the Supervisors were read. Mr. Ziegler stated one item not included in the report but felt it should be mentioned was that sometime in the future there will be a long-time projected road improvement plan for the Township. Mr. Trotter moved and Mr. Williams seconded the motion that the minutes be accepted as read.

The comment was made that a section of the Houserville Road is settling where the sewer line was put across the highway at the Stearns Development. Since this is a State Road and the ditch was dug by the Sewer Authority, no action was required by the Supervisors.

Mr. Roger Granlund made reference to the statement that the Bathurst property is still unconnected to the sewer line. He stated the Supervisors had previously been requested to take action on this matter. Mr. Williams reported he and Mr. Allison had discussed this and that Mrs. Bathurst had contacted Mr. Allison saying she was trying to arrange a loan to have this connection made. The Supervisors will follow up on this.

The Treasurer's report was given as follows:

Balance as of April 1, 1975 -----	\$10,314.90
Deposits during April -----	\$34,934.36
Balance -----	\$45,249.26
Expenditures for April -----	\$14,043.60
Balance as of May 1, 1975 -----	\$31,205.66

Mr. Trotter moved and Mr. Williams seconded a motion that the Treasurer's report be accepted. Passed.

CORRESPONDENCE

Correspondence from Mr. Ray L. Bright, Administrative Assistant of the Centre County Conservation District, dated May 9, 1975 was read. Also enclosed was a copy of a letter signed by Mr. Bright explaining erosion and sediment plans which are covered under Act 566. Mr. Bright explained that Patton and Ferguson Townships send him a copy of the Building Permit and he in turn sends the applicants a copy of the attached letter. In order to save time and postage, it was suggested by Mr. Bright that copies be made of his letter and given to applicants when they apply for a zoning permit if College Township is willing to do this. This was agreeable with the Supervisors.

He also inquired as to how the Supervisors felt about a work session to provide information on erosion and sediment and when it could be held. This will be discussed by the Supervisors and Mr. Bright will be informed of their decision.

A letter dated April 17, 1975, from Bernard J. Giangiulio Jr., Vice President of H. A. Thomson Company was read. The Board's application for Errors and Omissions Policy had been forwarded to the Underwriter and the policy

should be received within the next two weeks. This policy has been received.

A letter from the American Revolution Bicentennial Administration dated April 18, 1975, was read confirming that College Township has been officially approved as a National Bicentennial Community by their office in Washington, D. C. The Certificate of Official Recognition is being prepared and should be available for presentation within 30 days. Enclosed was a copy of the Graphics Manual which has been forwarded to Mr. J. Marvin Lee by the Supervisors. The Township is now entitled to use the national symbol in accordance with this manual. Congratulations were extended to the Township.

Mr. Marvin Lee, Chairman of the Bicentennial Committee for College Township, submitted a proposed expense list in the amount of \$560 to the Board. A copy is included in the minutes. Mr. Williams reported the County has given the Committee \$147.00 which is 1/4 of the amount of expenses. The State and the Federal Government will each pay 1/4, with College Township paying the remainder.

A copy of a letter to the Zoning Hearing Board from Katharine M. Mayes, Vice President of Mitchell Enterprises, Inc., requesting a variance to permit them to construct an office building and basement storage and service area for Hilltop Trailer Park. The date of the hearing for the request has been set for May 19.

OLD BUSINESS

Mrs. Dolores Taricani presented a Police Study Report to the Board. She read the cover letter accompanying the report. In it she stated she had gathered all the information she could obtain and forwarded this to Mr. Domer Orndorf,

Police Consultant for the Pennsylvania Department of Community Affairs, for his suggestions and recommendations which were included in the report. An attempt was made to be objective in preparing the report but she still has reservations about either option. The ultimate decision will be made by the Governing Body and they now have a great deal of information and a professional opinion to aid them in reaching a decision. Copies of the report were distributed to the 3 Supervisors, the 2 press members, 1 to the Governor's Justice Commission, 1 to the 2 interns doing the police study for 1973, 1 for the Township Police office, 1 to Mr. Orndorf, 1 to Chief Williams, State College Police Department, 1 to the Regional Public Safety Committee. Copies are available to be signed out by the residents of the Township who are interested in reading it. The Supervisors expressed their sincere thanks to Mrs. Taricani for the work and time spent on preparation of this report.

Correspondence was read from David Allison, College-Harris Joint Authority, dated April 30, 1975, informing the Board that the Authority has directed its Consulting Engineer, Penn State Engineering, to proceed with the preparation of a Stage I Grant Application for submission to the Department of Environmental Resources and the Environmental Protection Agency.

He said this is being prepared based on knowledge that the Supervisors have endorsed the College Township Planning Commission's recommendation which is to prepare the Grant Application but withhold submittal until reviewed by the appropriate local agencies, and to advise the Authority if this does not meet with the Board's approval. The Supervisors had previously agreed to this course of action so nothing was done regarding this notice.

A letter dated April 11, 1975, was read from Reed McCormick forwarding a copy of the Answer to the Petition re: Board of Supervisors of College Township vs Centre Hills County Club and Centre Hills Realty Inc. Petitioners No. 1880 Allocatur Docket, which was sent to the Supreme Court this date - April 11, 1975. The Secretary read the Answer whereby the Board of Supervisors respectfully request and pray that the Supreme Court of Pennsylvania deny the instant Petition and refuse to allow Petitioners to appeal from the Judgement of the Commonwealth Court.

Request for Rezoning of Rallis Property. A letter and copies of previous actions taken by the Rallis' were received by the Board from Attorney Lederer. The Rallis' are requesting a Curative Amendment to the Zoning Ordinance, under the direction of Judge Campbell. This is a new appeal and was turned over to the Planning Commission for their recommendation. The discussion that followed disclosed that the Rallis' previous appeal was dismissed. No decision was given by Judge Campbell because of a procedural error on the part of the Rallis'.

NEW BUSINESS

A letter from Thyrsa B. White, Regional Representative of Parks and Recreation Board, was read. Mrs. White stated that at the last meeting of the College Township Parks Committee it was decided to initiate action to establish a park in the Armau - Mitchell area along East Branch Road. Residents have called her expressing interest in pursuing the proposal. She indicated this recreational problem has been a concern for some time and inquired if the Supervisors would call a joint meeting with the Planning Commission and the Park Committee to discuss areas suitable for such a park.

After some discussion, it was decided a date for a work session with the Planning Commission and Park Commission would be set.

A letter from David L. Webster, Asst. Prof. of Anthropology at Penn State University was read. They wish to conduct some archaeological test excavations on Township property in Houserville located directly across the stream from the Spring Creek Park. His Department has appropriated funds to test a number of archaeological sites in the Centre County Region in 1975 and would like permission to include the Houserville site. They have also received a provisional grant in the amount of \$2400.00 from the Centre County Bicentennial Commission to publicize the results of their work. These tests would all be done by hand. The amount of disturbance would be minimal and all trenches would be filled and resodded. Their schedule for the summer runs from June 11 to July 30 and about 10 students would be involved. They would be glad to conduct guided tours of their excavation at the time.

Mr. Trotter moved that their request be granted. Mr. Ziegler seconded the motion but amended it to also recommend that Mr. Williams contact Mr. Webster to work out the details. Passed. It was also suggested that the Parks and Recreation Board be contacted regarding this project. They may want to involve this in their summer program. Mr. Ziegler stated he would like to find out for himself how they conduct these excavations.

A copy of a letter to Reed McCormick from the College-Harris Joint Authority informing him that sanitary sewer service is available to Lots 15-24 and Lot 26 in Section 1 of Mt. Nittany Terrace. These were constructed by Mr. Charles Rhoades in 1970 and accepted by the Authority in October 1970. Service is not currently available to the remainder of Section 1 and Section 2. The collector and interceptor system constructed by College-Harris Joint Authority is of sufficient capacity to serve the remainder of Section 1 and Section 2. If Mr. Beamer, present owner of the Development, desires to have sewer service the necessary steps were outlined in order to have it approved by everyone concerned. Mr. Williams felt there should be sewer service to all the lots when

it is being extended if they are going to develop it.

A copy of a letter to Ronald Weis, Chairman of the Planning Commission, from Nuri Mohsenin was read. Two basic questions concerning the proposal of adding a building on a lot off Elmwood Street on his property were asked.

1. The establishment of the Flood Plain Boundary Line on the lot so that he can build within 100 feet of such a boundary, as approved by the Planning Commission.
2. The question of subdivision requirements for adding a primary building on a lot where there are already some buildings in existence.

He felt there was enough information available now to establish such a boundary line. He asked that Mr. Weis call a meeting of the Supervisors, Planning Commission, Township Solicitor, the Zoning Hearing Board, the Zoning Officer. He felt these two questions plus the case of Herbert Stewart's rezoning proposal are sufficient grounds to justify a meeting of this nature. The Board has received no response from Mr. Weis on this request.

The Zoning Officer was asked the status on the last correspondence relative to the flood plain. Mr. Roush said the Township was supposed to have been contacted about two weeks ago by the HUD Engineers. No such contact has been made to date. He is writing a letter to the Administrator asking who the engineer is on the job and when the Township will be contacted, when he is stating to people like Representative Johnson and Senator Schweiker that contact has already been made.

Mr. Williams stated that Mr. Mohsenin's case is similar to Gordon Kissinger's in that it is "made" land. Mr. Roush said that the way the Flood Plain Ordinance reads the final decision on boundary is to be made by the Zoning

Officer based on the information received from an inspection of the property by the Township Engineer and a Soil Conservation Specialist. When the revisions, as presented to HUD approximately two months ago, are approved, then the Ordinance will be amended to include these changes. Until then the present Flood Plain Ordinance applies based on elevation

A discussion was held as to interpretation or amendment of the Ordinance. Mr. Trotter asked what Mr. Roush meant by amended, what it will be changed to as a result of what we have submitted? Mr. Roush stated there is a process for appealing that map, such as in the Flood Plain Ordinance, stating that the data shall be supplied to the Zoning Officer from the Soil Conservationist, Planning Commission, and Township Engineer. The Zoning Officer makes the decision. If that decision is not accepted by the applicant, he has the right to appeal to the Zoning Hearing Board. Now the Ordinance says the Zoning Hearing Board makes that decision, yes or no, based on that data. However, it doesn't say this decision is turned over to the Supervisors for formal process. Maybe it is implied but it is not expressed. So formally, this is Pat Partenheimer's line. There is no formal adoption setting forth that line as there is in the Zoning Ordinance change. His concern was how the piece of paper Partenheimer gives the Township becomes an official part of our map - as there is no way of amending the map. The original map was adopted as the official Flood Plain Ordinance Map. The Ordinance indicates that soil type is the basis for determination. Since it cannot be determined where Mr. Mohsenin's line is, he is appealing the decision of the Zoning Officer.

Mr. Roush showed the Board the flood plain boundary map and approximately where Mr. Mohsenin's lot is located. The boundaries can be validated only by soil conservation on-site surveys. Mr. Mohsenin stated that according to elevation, if his property is in the flood plain than the surrounding structures across the

stream must have been flooded up to their second floor. Mr. Williams stated that in 1936 this area was flooded up to the yellow house and since then has been filled in or "made" land.

The other question was on subdivision. It was decided by the Planning Commission that there should be a subdivision but the lot line need not be shown. Mrs. Taricani indicated that according to State Law the interpretation of subdivision lines is to be decided by the Zoning Hearing Board. (Act 247) Mr. Mohsenin is in consultation with the Solicitor on this matter. Mr. Trotter felt no purpose at this time could be served by holding a special meeting. The other members of the Board were in agreement.

Appointment of Certified Sewage Enforcement Officer. Mr. Williams moved that Jeffrey Roush be appointed as Certified Sewage Enforcement Officer for College Township effective as of May 1, 1975. Mr. Trotter seconded the motion, Mr. Ziegler supported it. Passed. The Ordinance will be revised and a Resolution passed to set the inspection fee.

A letter from Donald R. Dorneman, Director of Public Works, dated April 9, 1975, was read. Mr. Dorneman wrote that on April 8, 1975 the Borough Council had discussed the naming of the new highway being constructed in College Township and the Borough that connects Whitehall Road and South Atherton Street. The Borough Council suggested that inasmuch as the new road ties directly into University Drive, that the Borough and College Township agree to name the newly constructed road "University Drive". The Supervisors were in full agreement with this suggestion. A map was enclosed showing the existing Whitehall Road in blue and the new construction in red. The Board will advise Mr. Dorneman of their decision.

Opening of Bids. One bid was received which was from Tel-Power, Incorporated, Hollidaysburg, PA, for work to place a Mast Arm and Loop at the Intersection of LR 871 and LR 56 (Nittany Mall). The amount of the bid was \$3,835.00. After reviewing it, Mr. Trotter moved we accept the bid from Tel-Power, Incorporated in the amount of \$3,835.00. Mr. Ziegler seconded this motion and Mr. Williams supported it. Passed.

Adoption of Ordinance to Collect Real Estate Transfer Taxes. An Ordinance of and for College Township providing for the assessment and levy of a tax for general revenue purposes upon the transfer of any real property located within the Township on or after July 1, 1975; providing for the assessment, administration, collection and enforcement of said tax and imposing penalties, and, in short title, shall be known as "The Realty Transfer Tax Ordinance". This will be Ordinance #48 and not #748 as erroneously advertised in the newspapers. It was moved by Mr. Trotter that the Board adopt this "Realty Transfer Tax Ordinance" No. 48. This motion was seconded by Mr. Ziegler and supported by Mr. Williams. Passed.

The question was asked if this would reduce the other taxes of the Township. The Supervisors did not anticipate a reduction at this time. They will have to see how much revenue this tax brings in. Mr. Ziegler asked Mr. Williams when the last time was that something happened to the millage in College Township. Mr. Williams said it was in 1964 when they lowered the taxes as a result of taking on the 1/2% Wage Tax. The Per Capita Tax and the Amusement Tax were also dropped when they took on the Wage Tax in 1964.

By the next meeting it is hoped that the Occupational Privilege Tax Ordinance will be ready to adopt. It was mentioned that these taxes may all be wiped out if the new law that is proposed is passed to raise the Earned Income Tax to 3%, of which 2% will go to the School District and 1% to the Municipality.

A letter from the College-Harris Joint Authority to the Supervisors, dated May 2, 1975, regarding a complaint from Thomas Lechner. Mr. Lechner refuses to pay

the sewer assessment bill against his property because, among other things, grass has failed to grow in the right-of-way behind the curb which fronts his property on Hunter Avenue and Edward Street in Dalevue. The Authority feels this is the responsibility of the Township's contractor and not theirs. Mr. Lechner also complained a small area in his lawn was disturbed when the work was done and that remains to be restored. The Authority has taken this responsibility for the restoration.

A statement was made in the letter that "... Marona Construction Company agreed to make a payment to you (the Township) for pavement not placed by Marona during restoration, thereby allowing you to widen and repave Hunter Avenue. The contractor agreed to this payment if, and only if, the Supervisors would agree to assume the responsibility for the two year maintenance bond on Hunter Avenue and restoration of all driveway aprons and lateral cuts within the public right-of-way on Hunter Avenue. The Supervisors agreed to this arrangement and accepted the check...." Mr. Williams asked Mr. Allison for a copy of this agreement since the Township did not have one. Mr. Allison said that the Supervisors had not signed any such agreement. It was felt by the Supervisors that they could have the contractor go in and reseed the lawn but they would not be responsible for keeping it watered until it germinated.

Mrs. Taricani expressed dissatisfaction on the condition their front lawn was left with stones in the grass. Mr. Granlund stated he didn't recall of anybody coming in with the complaint that it wasn't restored the way it was before that didn't get action from their Board.

PLANS FOR APPROVAL

None

ANNOUNCEMENTS

The Supervisors are in the process of purchasing a small road roller. The specifications are being drawn up and will be advertised. The bids received will be opened at a Special Meeting to be held on May 23rd at 4:00 p.m. when the following business will be transacted:

- (1) Amend Ordinance #25 - Pennsylvania Sewage Facilities Act,
- (2) Pass a Resolution setting permit fees for on-site sewage systems
- (3) Open bids for road roller
- (4) Designate Farmers National Bank as Depository for State Account
- (5) Any other business that may be properly brought before the Board.

The Supervisors have been invited to take part in the State Lottery Drawing to be held at the Nittany Mall on May 14, 1975.

Sue Smith announced that at 5:00 p.m., Saturday, May 17th, there will be a clean-up party held at the Spring Creek Park. All College Township residents are invited. Bring your supper. There will be some entertainment planned. It is going to be publicized in the papers.

OPEN DISCUSSION

Mr. Ziegler announced that he had received a reply from Carl Fairbanks regarding the littering in College Township that blows over from the Borough. His letter did not say anything. This was returned to him with an "appropriate" comment.

Regarding the Gordon Kissinger Motel - Restaurant Plan, Jeffrey Roush looked into this matter and gave the following report to the Board:

- (1) the 1971 Soil Conservation System Map for State College Borough found the area to be flood plain but since it was unfortunately

filled in, it cannot be classified as flood plain. The Borough has since had a search made and found the land urban or "made" land and thus amended the SCS map accordingly.

- (2) The Borough has not bothered to appeal their HUD Special Flood Plain Hazard Maps and my visual observation of the map shows that the area in question has not been classified as a special flood hazard. This is due to an error by HUD as stated by the Borough Engineer. In fact, very little of Slab Cabin Run located in the Borough has been delineated as flood plain.

Therefore legally the Gordon Kissinger Motel Plans can be built on the flood plain that is now classified as "made" or urban land. However, no additional fill can be added except over existing fill. Please note that the portion of the Kissinger plan in College Township calls for a paved parking lot which is prohibited by the College Township Flood Plain Ordinance. If it were a gravel lot it would then be acceptable. Mr. Trotter stated that he had found out, from a report of one of the Councilmen, this particular area of land was filled in before the Flood Plain Ordinance was passed.

ADJOURNMENT

The meeting adjourned at 9:30 P.M.

Respectfully submitted,

John H. Ziegler  
Secretary

# BOARD OF SUPERVISORS

COLLEGE TOWNSHIP

1481 EAST COLLEGE AVE.

STATE COLLEGE, PA. 16801

January 2, 1975

Mr. Herbert W. Stewart  
R. D. 1, Box 256  
Bellefonte, Pennsylvania 16823

Dear Mr. Stewart:

This is to inform you that by unanimous action at their Special Meeting held December 31, 1974, the Supervisors of College Township decided to grant your requested extension for compliance with the order of October 24, 1974 by Mr. Jeffrey Roush, College Township Zoning Officer, requiring compliance by December 31, 1974. This stay of execution is to be in effect until a decision relative to the rezoning of the 7.84 acres under consideration is rendered by the Supervisors.

Sincerely,

*John H. Ziegler*
