Lemont Pa.
Nov. 2 1944

Supervisors met in the School House with all members present.

Mr. Campbell met with the board to advise them in some legal procedure. Mr. Frank Whitehill has taken action through his lawyer, Mr. Fleming, in regard to a water ditch along the township road and in front of his property in Lemont. The supervisors state that the ditch is as it has been for years except that a head wall was put in to keep the water from cutting into his lot. Matter was left with Mr. Campbell.

Mr. Campbell is to check on the ~~amount~~ rate of tax Collector's commission and advise the Secretary.

The supervisors agreed that because of the letter from West Penn Power Co. in regard to any possible surcharge for lighting service that they would use monies now available to pay for service to the end of 1944.

Action is to be taken to vacate the roads or pieces of road as follows:

~~(1) Cord state road at Dale Summit~~

(1) Piece between Clyde Strubles and Williams' properties
(2) Corner at Thornton farm at intersection with main highway
(3) Piece on Branch Road at Thos. Fishburn farm
(4) Piece back of Antoport
(5) Hollow Road from Crossroads to Benner Twp. line.

Mr. Campbell is to make up a statement for Lemont property owners to sign. When this is done the 1944 tax money will be given to the Lemont Committee and Mr. Rhodes will be exonerated from collecting these monies.
