State College Pa.
March 27, 1952

The Supervisors met at Borough Hall, State College. Present also were R. Y. Edwards and Kaye Vinson of State College. Mr. Edwards presented the matter of fire protection for College Twp. as furnished by State College under the existing agreement. The College and the Boro have each agreed to pay $3200 operating and maintenance, and $800 each to the sinking fund. The three townships including College Twp. should together pay $1500 operating and maintenance and $800 to the sinking fund. On the basis of the assessed valuations of the townships, it was suggested that College Twp. should pay a total of approximately $850 annually.

The opinion of the Supervisors was that this is too great an increase at one time from the present annual rate of $340. No decision was reached.
