Lemont, Pa.

May 14, 1957

The Supervisor met at the home of Clarence Weaver on May 14, 1957 at 7:30 o'clock PM. The following Supervisors were present, C. Weaver, L. Weaver and E. Williams. Also present was the State dog Catcher and the twp. Constable, Mr. Mench & Mr. Watkins. They were there to discuss the dog situation in the Twp. It seem like there is a lot of dog running around and destroying people garden & lawn. They reported that they made 13 arrest for dog without license, but there won't anything they could do with license dog unless we passed an ordinance making the people keep their dogs tied or at home. After a short discussion it was decided to take the necessary steps to have the ordinance passed. We received a petition from the residents of Oak Hall pertaining to the bridge over Cedar Creek, the planks rattle pretty bad when cars and trucks pass over it. We drove over and look at it and decided we would have the bridge Engineer come and look at it and see what we can do to stop it. The following plot plan were presented and approved. Robt. Everharts and Randall Keller. We rejected William Everhart plot plan because the street is only 30 ft. wide in for a way from the White Hall Road. The Twp Road are all in pretty fair shape now. The necessary steps were taken to get this years road work under way.

Approved: Lester M. Weaver
Chairman

E. G. Williams
Sec.
