Lemont, Pa.
Sept. 27, 1948

The Supervisors of College Twp. met in regular session in the School House at Lemont, All, Williams, Walters, and Lee, being present.

Bids had been received from Central Paving Co., and from Susquehanna Paving Materials Co. for proposed street improvement in Lemont. Bids were opened and on motion by Lee second by Walters contract is to be awarded the Susquehanna Paving Materials Co. subject to approval by Penna. Department of Highways.

One engineer estimated the cost of establishing the definite limits of the rights-of-way, and marking the center line to be $50 to $100. The abutting property owners generally agree that the original plan of the development allowed 40 feet and since the present street improvement would be about 25 feet in width overall, the supervisors agreed not to have a survey made unless further developments or circumstances make it necessary.

The Secretary is to see Mr. Campbell, the solicitor, in regard to an opinion to a form for signatures of abutting property owners, waiving damages along the street improvement.

The Secretary is to see Mr. Campbell also in regard to an ordinance requiring the approval of the supervisors to the laying out and development of lots by any property owner within the Township.

Adjournment

Elwood G. Williams
Chairman

J. Marvin Lee,
Secy.
